

Christina Doolan

Product Designer | UX/UI Designer

PROFESSIONAL EXPERIENCE

Lead UX/UI Designer

May 2025 – Present

Moonware INC. | Santa Monica, CA

- Own end-to-end product design for an enterprise application across iOS, Android, and web, supporting airport operational workflows
- Architected a cross-platform design system with 500+ variables and 100+ components, establishing a scalable foundation adopted by 100% of engineers across products and platforms.
- Led client iPad app design, modernizing navigation and core workflows based on field testing and usage data, supporting deployment across multiple Japan Airlines stations.
- Drive design adoption in production through AI-assisted audits, coded interaction prototypes, and developer documentation
- Adapt designs for English, Japanese, & Spanish, optimizing layouts and components for character-dense scripts, text expansion, and font fallback, enabling global product expansion.
- Collaborated with stakeholders to translate client requirements into product features, including service invoicing, KPI tracking, and multi-photo capture, helping secure a proof of concept with Worldwide Flight Services (WFS).

Design & Marketing Specialist

December 2022 – May 2025

USC Marshall | Los Angeles, CA

- Drove content strategy and iteration, increasing LinkedIn impressions by 487% and engagement by 596% through data-informed design decisions
- Collaborated cross-functionally to align design solutions with marketing and sales goals, ensuring cohesive user experience across campaigns

User Experience & Graphic Design Intern

June 2024 – August 2024

Bluebeam Software | Pasadena, CA

- Redesigned customer training sites and videos, enhancing onboarding for Bluebeam's 3M subscribers using Figma, jQuery, and Adobe Premiere Pro
- Created 100+ thumbnails for live trainings, courses, how-to guides, and related content, ensuring cohesive, on-brand visuals and clear differentiation for intuitive navigation

UX & Brand Designer

August 2023 – January 2024

Ravinia College Consulting | Virtual, USA

- Led a comprehensive redesign of company website, improving usability and aligning the digital experience with user needs
- Developed company logo and visual identity, establishing a cohesive brand across digital, marketing, and sales channels
